./YOUR BRIDAL EXPERIENCE

I believe bridal makeup should enhance rather than transform. Your look is created with you in mind, considering not only your features and skin, but your dress, hair, wedding setting and personal style.

My approach focuses on refined detail, flattering tones and enduring wear, creating makeup that feels just as right in person as it does on camera and still feels unmistakably like you.

./ THE PROCESS

Personal Consultation
Once your wedding is booked, we'll arrange a personal video consultation to talk through your plans, personal style, usual makeup, ideas for the day and anything you would particularly like us to consider.
It also gives us an opportunity to discuss your timings and bridal party so that everything can be planned well in advance.

Your Bridal Preview
Your Bridal Preview is dedicated time to create and refine your wedding look.
We'll consider your skin, features, dress, hair and overall aesthetic, working through the details together until we have a look that feels completely right. Your chosen products and application details are recorded ready for the wedding day.

Final Planning
Ahead of your wedding, I'll confirm the details of your morning and prepare a clear makeup schedule around your ceremony time, bridal party and other suppliers.
You'll know when I'm arriving, when each person will be in the chair and when makeup will be complete.

Your Wedding Morning
On the day, I arrive with plenty of time to set up and prepare before makeup begins.
Everything has already been planned, leaving you to enjoy your morning while I take care of your makeup. Before I leave, I'll complete final checks and finishing touches and provide your personal touch up kit for later in the day.

./ MY APPROACH

Calm. Organised. Meticulous.

Creating your bridal makeup is only one part of my role on your wedding morning.

My professional background in project management has shaped the way I approach weddings. Preparation matters. Timings matter. Communication matters.

Your schedule is considered in advance, my kit is prepared around your chosen look and makeup timings are coordinated with the wider plans for your morning. I arrive punctually and prepared, with enough time built in to work calmly and meticulously without making your wedding morning feel rushed.

You should not need to manage your Makeup Artist on your wedding day. You should be able to sit down, relax and know that everything has already been taken care of.

./ MEET VERENA

Most importantly, I want you to feel comfortable in my chair, confident in the plan we have created together and free to enjoy the experience.

./ FAQ

When should I book my Bridal Preview?
Your Bridal Preview will be arranged ahead of your wedding with plenty of time to create and refine your chosen look, usually 4 to 6 weeks before your wedding day. We'll discuss the best timing for your appointment once your wedding date is reserved.

Can you accommodate a larger wedding party?
Yes. Larger wedding parties can be accommodated depending on your ceremony time and getting ready schedule. Where required, an additional Makeup Artist can be arranged to ensure the morning remains relaxed and runs comfortably to time.

Do you travel outside the Cotswolds?
Yes. Weddings further afield are warmly welcomed. Any additional travel, parking or accommodation requirements will be discussed as part of your quotation.

Can I add bridal lashes later?
Subject to availability, yes. If you decide you would like bespoke lash extensions after reserving your Bridal Makeup Experience, we can discuss the most suitable option and plan your appointments around your wedding date.

What happens if my wedding timings change?
Please let me know as soon as possible. Where possible, I will adjust your makeup schedule around changes to your ceremony time or wider wedding morning plans.

./ FAQ

Can you stay for additional touch ups?
Extended touch up services may be available by prior arrangement. If you would like me to remain with you beyond the wedding morning, please mention this when enquiring so it can be included within your quotation.

Can I book makeup for other wedding events?
Yes. Makeup for additional celebrations surrounding your wedding may be available by arrangement, including rehearsal dinners, pre wedding celebrations and other events.

Do you work alongside a hairstylist?
Absolutely. I'm happy to work alongside your chosen bridal hairstylist and will coordinate our timings when planning your wedding morning. I also work with trusted hairstylists and would be happy to make recommendations if you are still looking for the right person.

How should I prepare for my Bridal Preview?
If possible, choose a day when you have plans afterwards so you can see how your makeup wears over several hours and in different lighting. If you are planning a spray tan for your wedding, I recommend having this for your Preview too. Please also allow appropriate recovery time after treatments such as chemical peels, microneedling or waxing, so your skin is calm and fully recovered for your appointment.

Can you stay for additional touch ups or a change of look?
Yes. Extended attendance can be arranged for additional touch ups, post ceremony finishing touches or a change of look. I can remain at your venue after the wedding morning service for £80 per hour, subject to availability and agreed in advance.
